

Based on the information provided in the source, here is a process and procedure document for performing a finance transaction:

Process: Performing a Finance Transaction (Synchrony Transact)

Objective: To successfully process a customer finance transaction using the Synchrony Transact system, culminating in collecting payment and obtaining required signatures.

Procedure:

1. Check Application Status:

- Begin by looking up the customer's information.
- Use the **last name search** function to find their application status.

Check Application Status

Search By

Program Name

MITSUBISHI - HOME DESIGN

Search Method

— Last Name

Applicant's Last Name

Cresencio

+ Home Phone Number

+ Application Date & Status

+ Application Key

Search

Cancel

No applications were found that matched your criteria

2. Start a Transaction Purchase:

- Once the customer's information is located, initiate a "transaction purchase".

Cancel

4. Confirm Merchant:

- Ensure that the correct merchant name (e.g., Mitsubishi Home Design) is defaulted or selected.

5. Enter Invoice Details:

- Input the relevant **invoice number**.

- Enter the **date of sale**.

6. Enter Sale Price and Items:

- Enter the **total sell price** of the job.
- Add the specific items being financed (e.g., product models like MSZGX30 NL MSI GL GX30NL).

7. Account for Down Payment (if applicable):

- If the customer made a **down payment** (via check or credit card), enter the amount in the designated field.
- The system will calculate the balance due to be financed.
- If there is **no down payment**, the entire sell price will be financed.

8. Select Finance Plan:

- Choose the specific financing plan the customer is using (e.g., Plan 933 0% interest for 60 months).

9. Add Notes (Recommended):

- Edit the customer's synchrony account to add notes specifying the selected plan (e.g., "going with plan 933 0% interest for 60 months").

10. Get Authorization:

- Proceed to get **authorization** for the transaction.

11. View Sales Slip:

- After authorization, view the generated sales slip.

12. Download Sales Slip:

- Download the sales slip document.

13. Send for Signature via Zoho Sign (or similar):

- Go to Zoho Sign (or the designated electronic signature tool).
- **Add the downloaded sales slip** as the document to be sent for signature.
- Input the buyer's full name and email address as the recipient who needs to sign.

14. Place Signature Fields:

- Add the required fields for the **buyer signature** and the **date** onto the document within the signature tool.

15. Send Document:

- Hit send to dispatch the document to the customer via DocuSign (or the tool being used) for their electronic signature.

16. Inform Customer:

- Let the customer know that the document has been sent to them for signature.

17. Upload Signed Document:

- Once the customer has signed the document and it is returned electronically, **choose the file of the signed sales slip.**
- Upload the signed document into the system, specifically into the "send sale slip" documents section.

This process completes the primary steps for performing a Synchrony finance transaction based on the provided source. Note that other related processes, such as submitting for a Mitsubishi rebate program, may be handled separately.
